*For best performance, double doors to be used in areas with severe weather exposure must be installed using entry alcoves or large soffit overhangs to protect entry unit from exposure. Multi-point locking systems are highly recommended for double door applications.

2. Select a glass type

3. Select a door category

Fiber-Classic® Fiberglass Hinged Patio Door Systems

You want the very best for your home. We proudly present Fiber-Classic – our premium fiberglass hinged patio door system featuring a natural oak grain without any of the drawbacks of wood like cracking, splitting, or warping. Its rugged exterior resists dents, dings and damage with exceptional durability. Adjustable sill and Low-E glass are just a few of the standard features. The full system is backed by a lifetime limited warranty.

Smooth-Star® Fiberglass Hinged Patio Door Systems

Is a smooth painted look more your style? A Smooth-Star hinged patio door system offers a smooth surface with crisp stile and rail lines like a painted wood door. The durable fiberglass surface provides the strength of steel that resists dings and dents. Smooth-Star hinged patio doors feature an adjustable composite sill and Low-E glass, making these units virtually trouble-free and energy-efficient. The full system is backed by a limited lifetime warranty.

Steel Hinged Patio Door Systems

Get into the swing of the hard working steel hinged patio system at an attractive value. Therma-Tru's system design assures years of smooth operation. The Steel Hinged Patio Door System offers a limited 5-year warranty.
